7-8 Sept 2025, Dubai

Dr. Meenaskhi Kher, MDS

PEDIATRIC DENTISTRY MASTERCLASS

Evidence-Based Advances in Pediatric Dentistry: Contemporary Techniques for Clinical Excellence

- 2 days of comprehensive curriculum
- Master the modern techniques from one of the most accomplished clinician speakers who has lectured worldwide.
- Wisdom of 30 years in 2 days
- Golden opportunity to learn & apply the multidimensional aspects of pediatric dentistry.

2025-2030
UAE pediatric dentistry market is
expected to reach USD 101.4 million by
2030, growing at a 7% CAGR

About the Course mentor

Dr. Meenakshi S. Kher, MDS, FIAPD

Renowned Pediatric Dentist | International Educator | Author

- BDS, Government Dental College & Hospital, Mumbai (1991)
- MDS, Pediatric & Preventive Dentistry, Nair Hospital Dental College, Mumbai (1995)
- Founder of Happy Tooth Clinic for Kids, Mumbai – a premier pediatric dental practice.
- Specialist in minimally invasive dentistry, dental trauma, special care dentistry, and soft tissue laser use in children
- Creator of the popular CDE program Pedopathshala, mentoring thousands of dentists globally
- Author of the international textbook Contemporary Treatment Techniques in Pediatric Dentistry (Springer, 2019)
- Invited speaker at global dental conferences, webinars & podcasts
- Fellow, International Academy of Pediatric Dentistry (FIAPD), awarded in 2023
- Member, Education Committee, IAPD

Day 1: Sept 7, 2025

Unlearning & Relearning! Contemporary Evidence-Based Management of Early Childhood Caries

Morning Session: 9 AM to 1.30 PM

1

Minimum Intervention for Maximum Gain

- **Evolving Concepts in Caries Management:** Understanding the paradigm shift in caries etiology and the clinician's role in modern, risk-based care
- **Evidence-Based Treatment Planning:** Selecting interventions based on age, lesion activity, cleansability, and depth, including considerations for children under 3 and general anaesthesia safety
- **Minimally Invasive Techniques:** Best practices and current evidence for NRCC, Silver Diamine Fluoride (SDF), and lesion management without caries removal.

2

Minimally Invasive Restorative Techniques - Best Practices

- Silver Modified ART (SMART)
- Glass Ionomer restorations
- Hall Technique
- The use of Gentle Hand Burs.
- Concept & Technique: Selective removal (SR) of carious tissue
- When SMART & when SR?

3

Successfully Treating Pulpally Involved Primary Teeth

- When to choose selective removal of carious tissue (Indirect Pulp Therapy - IPT) and when is it wiser to perform a pulpotomy procedure?
- Primary tooth pulpotomy, discussion of current materials and the pulpotomy procedure in depth.
- Full coverage crowns, including the new Bioflx Crowns.
- Primary tooth pulpectomies, best practice.
- When to extract the primary tooth & place a space maintainer?
- Lab-fabricated custom made space maintainers
- Pre-formed space maintainer techniques.

Day 1: Sept 7, 2025

Unlearning & Relearning! **Contemporary Evidence-Based Management of Early Childhood Caries**

Post-lunch Session: 2.30 PM to 6.00 PM

1

Pulp Management in Traumatized Immature Permanent Teeth: Part 1

- Types of dental trauma seen in immature permanent teeth.
- Why & how immature permanent teeth need to be treated differently.
- Different treatment protocols that encourage apexogenesis in traumatized vital immature permanent tooth. What will you do & when.
- Step-by-step discussion of partial and complete pulpotomies & partial pulpectomies in immature permanent teeth.

2

Pulp Management in Traumatized Immature Permanent Teeth: Part 2

- Fragment reattachment technique and minimally invasive restorations in immature permanent teeth.
- An introduction to treating the necrotic immature permanent tooth. When apexification and when a regenerative endodontic procedure?
- A brief introduction to the regenerative endodontic procedure.

3

Bonus Sessions

Pediatric Dental Trends & Practices Around The World! –
Dr. Mukul Jain, MDS, Pediatric Dentist

Interactive PANEL DISCUSSION – with Q&A
Dr Mukul Jain & Dr Meenakshi Kher

Certification distribution to participants with only Day 1 registration

Day 2: Sept 8, 2025

Re-evaluating Decision Making: Occlusion Interventions in Pediatric Dentistry

Morning Session: 9 AM to 1.30 PM

1

Occlusal Interventions in Pediatric Dentistry - Part 1

- Understanding the impact of airway and breathing on the development of the face and occlusion
- Assessment of sleep disordered breathing and a multidisciplinary approach to managing it's effects
- Importance of Orofacial myofunctional therapy and other methods to improve face posture and breathing

2

Occlusal Interventions in Pediatric Dentistry - Part 2

- Timely management of occlusal interferences in the primary dentition using selective grinding procedures
- Bite planes & modified tracks based on the philosophy of the planus tracks
- Myobrace & oral screen for habit correction
- Removable & fixed appliances to correct early malocclusion

3

Hands-on Exercises

- Zirconia & Bioflx Crowns
- Preformed space maintainers.
- Participants can work with Putty MTA for pulpotomy & Models with endo-motors for hands on pulpectomy

Day 2: Sept 8, 2025

Re-evaluating Decision Making: Surgical Procedures (Laser Advantages), GA & Behaviour Management

Post-lunch Session: 2.30 PM to 6.00 PM

1

Tongue Ties, Lip Ties, & Mucoceles: Oral Surgical Procedures in Pediatric Dentistry

- How to do: Functional assessment of ankyloglossia
- Understanding which child will benefit from a surgical release
- Infant tongue ties and the role of a lactation consultant
- Surgical protocol, technique & after-care: infant tongue ties using a diode laser.
- Treating tongue ties in older children using a diode laser
- Soft tissue laser: Treating other minor oral surgical procedures: lip-ties & mucoceles

2

Treating Children with Intellectual & Physical Disabilities - Unique Challenges in Pediatric Dentistry

- Understanding the unique challenges of children with special health care needs
- Meeting the special needs - Adapting & altering your dental practice
- Meeting the special needs - Adapting & altering treatment plans
- A multidisciplinary approach to treating individuals with special health care needs

3

General Anaesthesia in Pediatric Dentistry

- A brief overview of oral and nasal sedation in pediatric dental practice
- Pediatric dentistry under general anaesthesia in the operating room
- Adapting treatment plans and techniques to ensure success when performing pediatric dental procedures under general anaesthesia

EXTENDED ADVANTAGE TO THE PEDIATRIC MASTERMIND

3-STEP LEARNING PROGRAM OVER 3 MONTHS

Online Pre-course | In-person Course | Post-course Support

In-person course

1. Five-star facilities and service at Radisson Blu, Dubai.
2. Professional Hands-on at Total Core Academy.
3. Demo and Hands-on – setting a base for clinical implementation
4. Networking with mentors and like-minded peers
5. Trade interactions with cutting-edge technology and high-value special offers (products and services that would be of use to a Pediatric & General Practice)
6. Accreditation 14 CDE points for Days 1 & 2 (in process)
7. Free marketing guide/book – Brandent: 32 Pearls of Wisdom by Dr Anisa Patel, with a meet and greet with Dr Anisa. You can book one-on-one marketing consultation appointments.
8. Goody bag of discount vouchers from Sponsors.

EXTENDED ADVANTAGE TO THE PEDIATRIC MASTERMIND

3-STEP LEARNING PROGRAM OVER 3 MONTHS

Online Pre-course | In-person Course | Post-course Support

Online Pre-course

1. Webinar: Building a professional brand of your paediatric dental practice using social media. (90 mins) by **Dr Anisa Patel**, paediatric dentist, author, social media marketer.

2. Question and Answer Session with **Dr Meenakshi Kher** and **Dr Mukul Jain** on the making of a new-age paediatric practice in tune with world standards (30 mins)

Post-course support (Sep-Oct 2025) (For day 1 & 2 registered)

1. Online Post-course case mentoring for 60 days by Dr Mukul Jain
2. Case submission by participants in a private Facebook group.
3. Online Award Ceremony (Nov 2025): Certificate + Voucher (up to 1000 Dhms) to be used on InnovaSmilesEdu e-shop + Sponsored prizes + International journal publication of select cases.
4. Innova-smiles-edu Pediatric study group for shared learning and networking with peers

EXTENDED ADVANTAGE TO THE PEDIATRIC MASTERMIND

3-STEP LEARNING PROGRAM OVER 3 MONTHS

Online Pre-course | In-person Course | Post-course Support

Post-course material support (For day 1 & 2 registered)

Hands-on kit from Kids-e-dental worth 2000/- Dhms

Pediatric files (10 cases), SDF -1,25 ml Bottle (50 cases), Bioflx crowns (16 cases), SS Space Maintainer (15 cases), MTA (5 cases).

- e-MTA Putty
- e-IodoCal
- e-SDF
- Kids-e-Files (1 Assorted Pack)
- Pulpectomy Model & Pulpotomy Model
- e-Space Maintainer Mini Kit (12 Bands)
- Space Maintainer Model & 2 Space Maintainers
- Bioflx Crowns Posterior Mini Kit (16 Crowns)
- Bioflx Anterior Crown & Model
- Bioflx Posterior Crown & Model
- Anterior Zirconia Crown
- Pouch
- Mirror
- Key chain
